% in red: these scores represent students who have completed the program in the minimum time, while other students are still completing the program in the advertised time. Thus, these % scores do not accurately reflect the whole cohort.

FT=Full-time

PT=Part-time

*Minimum length of time is the shortest time possible that a student could complete the program (i.e., a student doubled up on coursework one semester and was able to graduate early).

Programs should report graduation rates for program's Advertised Length of Completion which is how long the program is designed to complete as written.

Programs can enter graduation rates for program's Maximum Length of Completion which is the maximum allowable time in which a student could finish the program (i.e., if a student needed to take time off due to illness, family responsibilities, etc.).

**Program are only required to provide data on the past 10 years/cohort or since the program was initial accredited, whichever is shorter

*** Masters and Doctoral programs are required to provide this information. Job Placement Rates by cohort is defined as the percentage of graduates from the cohort year listed that are employed utilizing skills learned in the COAMFTE accredited program. Job Placement rates are calculated using the following data:

- # of graduates that reported their employment status to the program
- # of graduates, who entered in the year listed, that are employed within 3 years of their graduation utilizing skills learned in the COAMFTE accredited program

**** Master programs are required to provide this information. Doctoral and Post-Degree programs are encouraged to share this with the public. For Master's programs only, COAMFTE has established a benchmark of 70% pass rate for each cohort.
